

AS U121 surface mounted profile can easily be installed by means of screws to all types of wall & ceiling. Owing to wide frame, it's especially recommended for applications at damaged or chamfered walls. Ribbed elastomeric gasket gains the profile a remarkable movement ability and compensates level differences on both sides of the wall. Slide-in gasket system lets the profile to be used at exterior applications as well as interior areas. Profiles up to 150 mm gap are applied with single gasket while the wider ones are with double gaskets joined with a connector profile.
