

AS A263 is Asteknik's patented profile (Patent No: TR 2010 06287B) and designed for extreme heavy duty use. Thanks to arch shape which lets it to resist to more load than other flush mounted heavy duty profiles and secures a smooth transition for the vehicles. Pure metal structure characterizes AS A263 to be a hardwearing and maintenance free profile. Hinged & sliding profile design enables to meet the displacements in 3 directions. EPDM cords placed between side frames and center plate eliminate metal stroking noise. For superiorly installation, AS A263 can be assembled by means of special aluminum anchorages. Profiles are delivered factory-assembled.
