

AS A155 profile is designed for wall & ceiling applications at indoor areas as well as exterior wall applications. It functions as a seismic profile and gives a decorative aspect with invisible screwing system. Base frames of the profile are fixed on the surface at both sides and the movable center plate meets the displacements. It can be used as surface or flush mounted. EPDM Cord placed between cover and center plates tighten the plates and eliminate metal stroking noise. For exterior applications, please inform Asteknik before placing an order.
